OUR TECH SOLUTION ⚙

Barnardo's and Invisible Building have developed a bilingual reporting platform for directly addressing housing issues between landlord and tenant

OUR SEED FUND PROPOSAL

A Seed Fund award would allow us to:

- Upgrade 'FixIT' with 'Premium' features including allowing video evidence to be submitted when reporting an issue.
- Improve 'FixIT' through research and development with a focus on the reporting feature and landlord / tenant communication
- Build more automation into 'FixIT' allowing issues to be solved via 'How to Guides' giving the families the opportunity to exercise greater autonomy
- Share 'FixIT' with other organisations to aid refugee and asylum seeking families. Pushing for 'Growth' and 'Expansion' across UK and Ireland.
- Translate 'Terms & Conditions', 'GDPR' and 'Data Processing' information
