How We Work

The Community Foundation staff are a motivated, driven team. For all our roles, a high degree of self-awareness and teamwork is required.

The Community Foundation isn't an ordinary organisation to work for and we aren't looking for ordinary people. We expect everyone to be self-directed, motivated and take responsibility for getting their work done, pushing for the new and better things that we can do. We support and encourage people, if they don't know something, to go and find the answer themselves. We trust and expect staff to get things done without always having to ask permission

We are always challenging ourselves to do things better. We hold ourselves to the highest standards. We are always learning. We encourage staff to develop their skills, experience and qualifications to enable them to achieve their next career goal. We support staff through mentoring and coaching, training, learning opportunities and formal qualifications. We support everyone who wants to develop their leadership skills.

We look out for each other; we notice if someone is having a bad day and respond appropriately. We help each other have fun.

We look after our staff and offer an attractive salary and benefits package, including flexible working, a health cash plan, volunteering days and birthdays off, in addition to a defined contribution pension scheme with life insurance and permanent ill-health insurance.

Our Values

Generous	We encourage generosity in everything we do; we look out for each other; we deal with everyone with compassion, empathy and understanding. We are flexible in how we work with staff, donors and grantees.
Thriving	We see the potential within both our staff and the communities we work in and are committed to help both reach their full potential.
Together	We will only make the change we want to see together. We value participation, working with others and bringing people together.
